Software Developer

Skilled software developer and experienced UI/UX designer with over 5 years of coding experience and a proven history of delivering innovative and efficient solutions. I am proficient in multiple programming languages and frameworks, combining strong technical expertise with effective problem-solving skills. In addition to building top-tier software under tight deadlines, I have also trained students and professionals looking to improve their coding skills. Passionate about leveraging my abilities and enthusiasm for technology and design to drive success in a dynamic team environment.

EDUCATION

Thunderbird School of Global Management, Phoenix, AZ	MAY 2027
Master of Global Management (Data science)	

The International University of Management, Windhoek, Namibia	MAY 2023
Bachelor of Science in Software Development	

PROJECTS: Software Development Projects

-
- Designed and developed mobile and web applications using React and Flutter, enhancing end-user engagement and improving usability.
 - Conducted rigorous testing and debugging using tools like Selenium and Jest, improving system stability and reducing production bugs.

PROFESSIONAL EXPERIENCE

Software Developer (Remote contractor)	Scitylana, Harare, Zimbabwe	MAY 2020-DECEMBER 2024
---	------------------------------------	------------------------

- Accomplished a 30% reduction in load times and boosted client engagement by redesigning a key web application using advanced web development techniques.
- Designed and developed cross-platform mobile applications using React Native, including a budget management app featuring geolocation and real-time updates, which contributed to a 30% improvement in user retention.
- Engineered and implemented full-stack solutions, optimizing seamless integration between frontend and backend to enhance system performance and customer experience.

IT Administrator	Dog Force Security Services, Wk. Nam	August 2023-February 2024
-------------------------	---	---------------------------

- Improved business process efficiency by 25% through the implementation of the Odoo ERP system, leveraging integration and automation techniques.
- Enhanced system reliability by reducing downtime by 40% through prompt hardware support and efficient troubleshooting of technical issues.
- Improved organizational cybersecurity by conducting workshops on safe practices, leading to a 30% reduction in security incidents.

Web Developer	Enov Technologies, Windhk, Namibia	JULY 2021-September 2023
----------------------	---	--------------------------

- Built responsive web applications with Next.js and Tailwind CSS, optimizing performance and customer experience, resulting in a 25% increase in consumer engagement.
- Developed cross-platform mobile apps using React Native, including a budget management app with geolocation and real-time updates, resulting in a 30% increase in end-user retention.
- Integrated natural language processing models with Dialogflow and Amazon Lex for conversational features, resulting in a 40% improvement in user interaction and satisfaction.

LEADERSHIP AND ACTIVITIES

- Class representative – at The International University of Management February 2021

TECHNICAL SKILLS AND CERTIFICATIONS

- European Computer Driving Licence (ECDL)

ADDITIONAL INFORMATION

- **Languages:** English (Fluent), Shona (Fluent).
- **Hobbies:** Coding personal projects, photography, hiking.
